To whom it may concern:

Miss Strug was my seventh grade social studies teacher during the fall of 2011.

I would recommend... let me rephrase that I will recommend Ms Strug as a teacher because she is very good at this. I believe it comes natural to her teaching children, especially in my age group. When anyone has a question she can answer it without even thinking. Ms. Strug should be a teacher because she can connect with kids very well while teaching. She is also very fun when you want to talk. I know if and where she is accepted the kids will love her. Just like my class.

Sincerely,
